

My Art LOFT

INTERIOR DESIGN & ART

STUDIO

Interior is a system.

Art is a feeling.

I bring the two together.

Where there is logic.

And there is beauty.

Volha Khelis

Background in mathematics,
solution architect and product manager in IT,
an artist by inner necessity.

I think in systems.

I feel through art.

I design interiors
that are comfortable, clear
and beautiful to live in.

PROJECT
A LANGUAGE OF CALM

AN INTERIOR ABOUT BALANCE AND SLOWING DOWN.

An interior shaped by balance and calm.

A one-room apartment
transformed into a complete two-room space.

A clear structure for everyday life.

Designed in a Japandi-inspired aesthetic —
calm, refined, free of excess.

Precision in both form and material.

Silence is the result of precise decisions.

Minimal form. Maximum meaning.

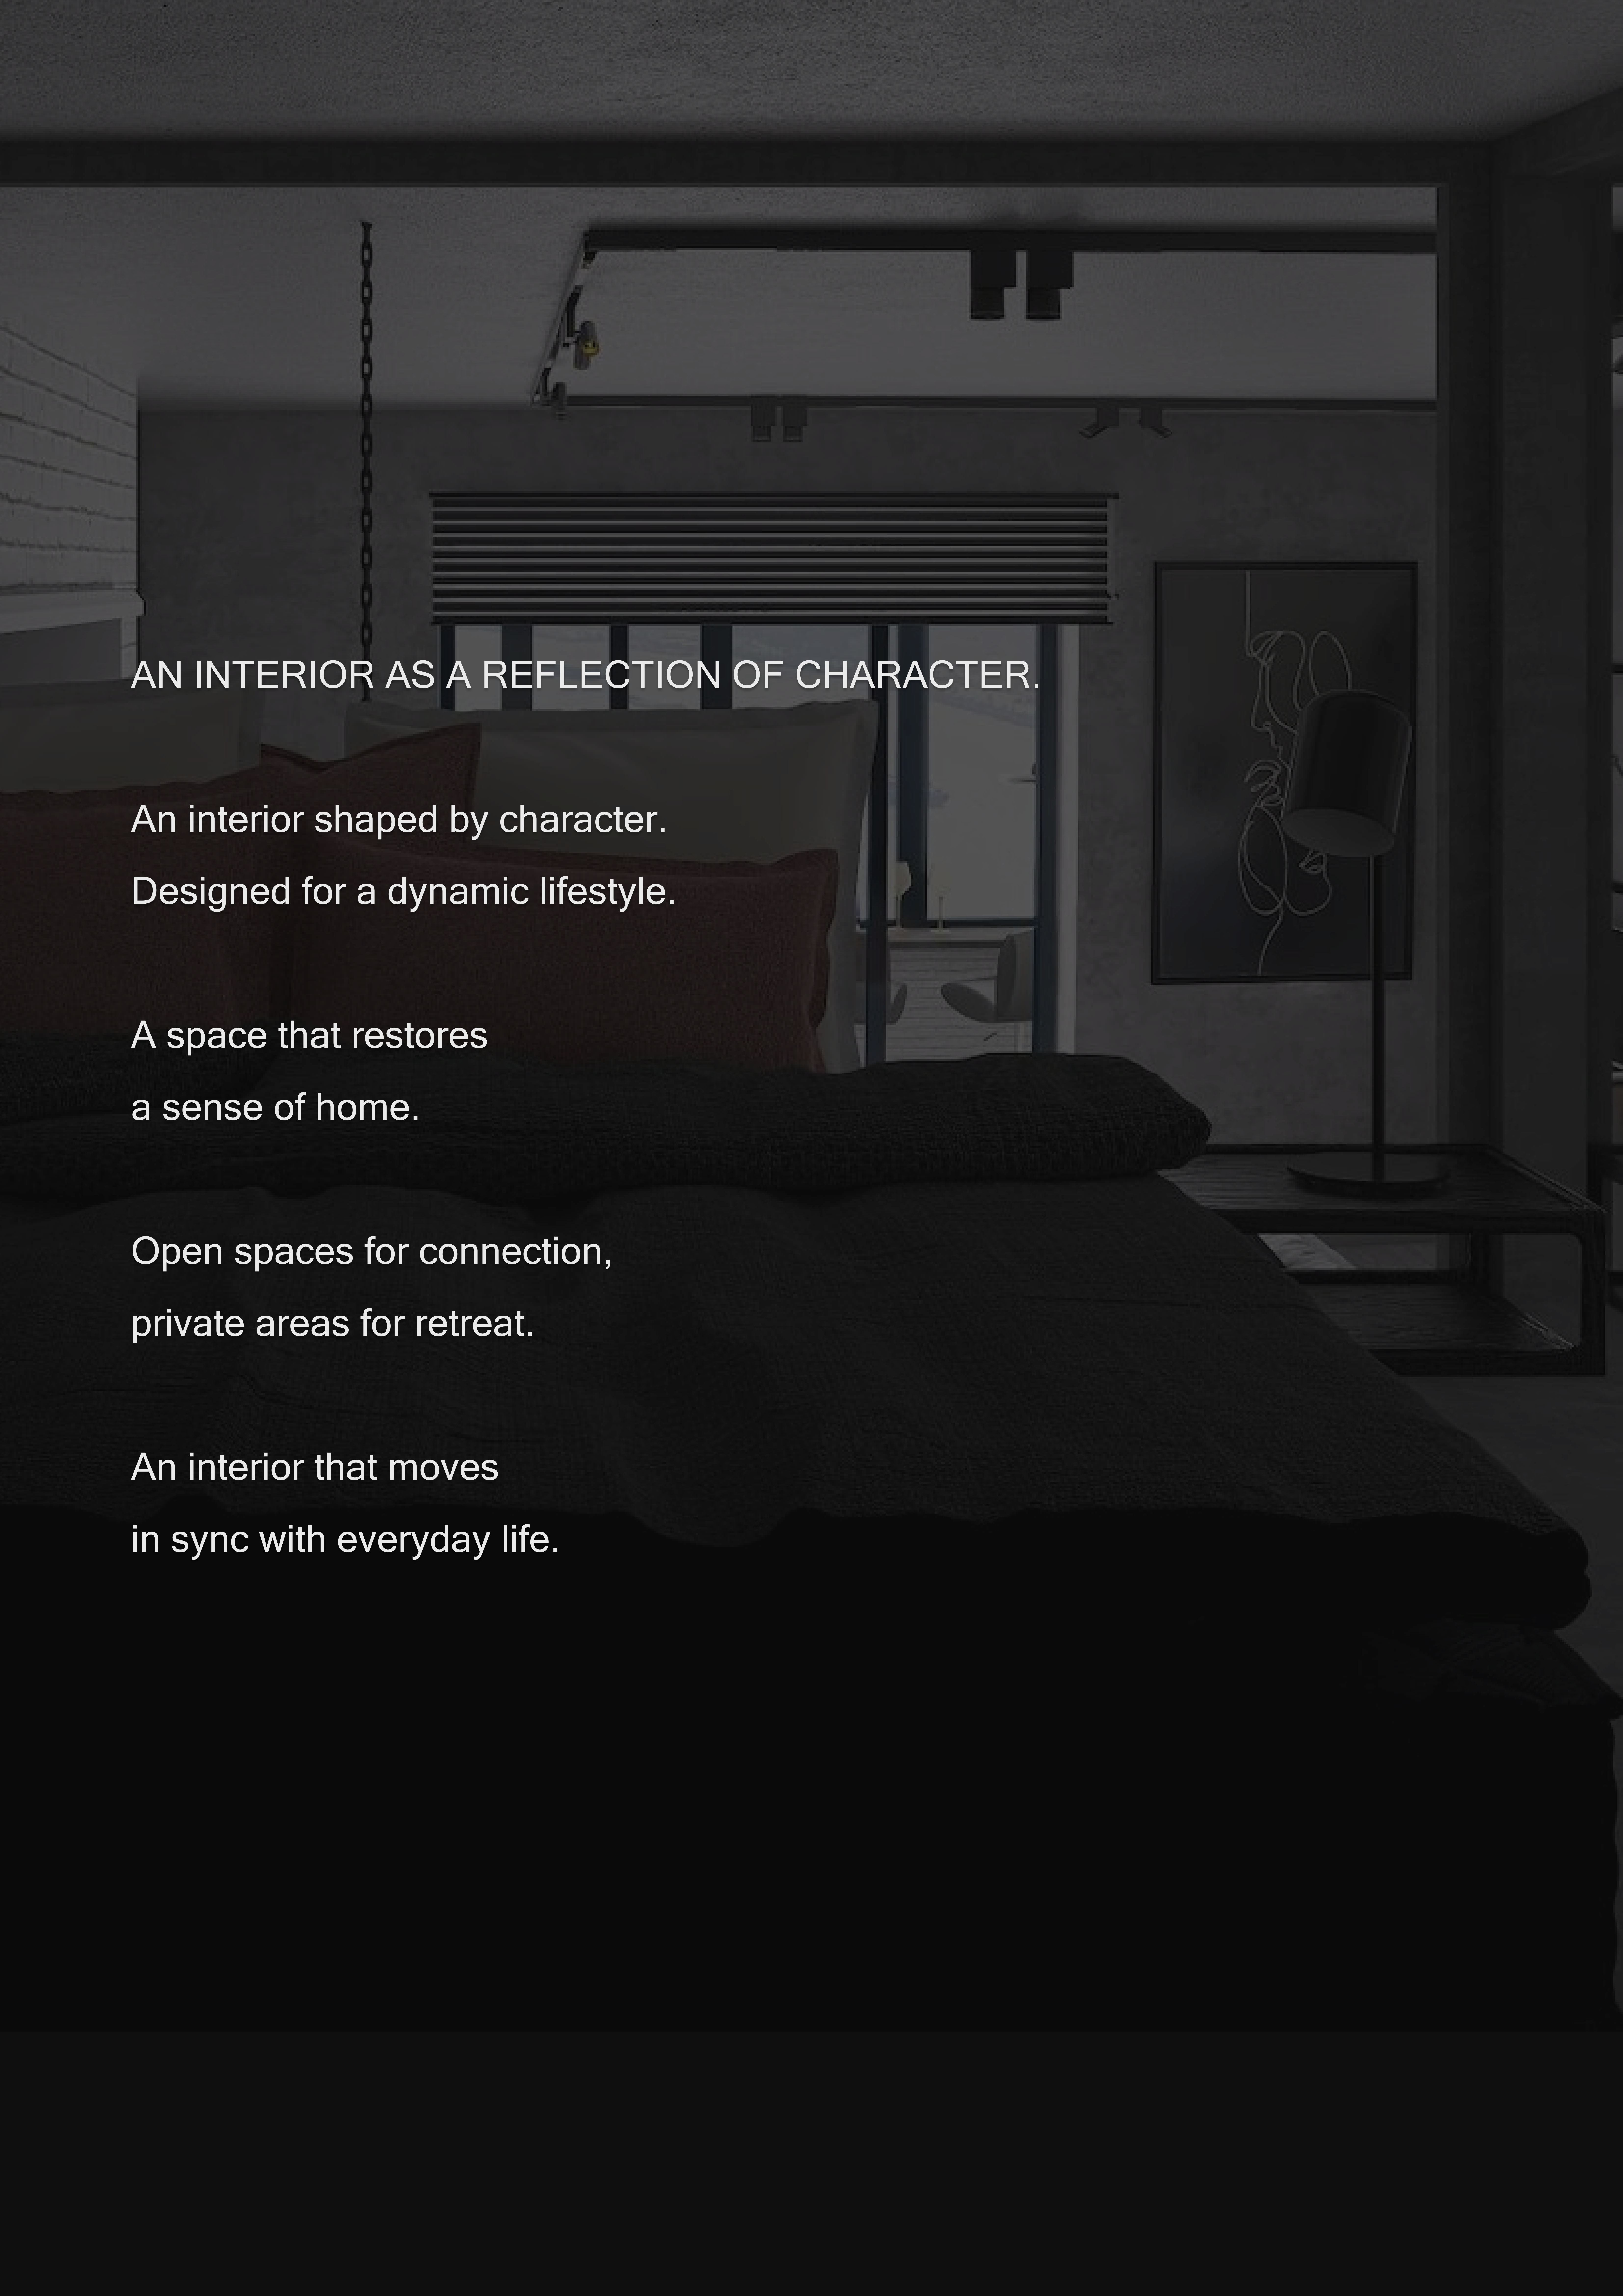

A space
where you can slow down
and return to yourself.

PROJECT

WHEN A HOME BECOMES A REFLECTION OF CHARACTER

A dark, moody photograph of a modern interior. In the foreground, a large, dark-colored sofa with several cushions is visible. To the right, a tall, thin floor lamp with a cylindrical shade stands next to a low, dark coffee table. On the wall behind the sofa, a framed piece of art is displayed. The background shows a large window or glass partition with horizontal blinds, and a track lighting system is mounted on the ceiling. The overall atmosphere is sophisticated and contemporary.

AN INTERIOR AS A REFLECTION OF CHARACTER.

An interior shaped by character.
Designed for a dynamic lifestyle.

A space that restores
a sense of home.

Open spaces for connection,
private areas for retreat.

An interior that moves
in sync with everyday life.

Clearly defined living scenarios.

A balance between openness and privacy.

Art as a focal point.

A space aligned
with your rhythm.

PROJECT
ARCHITECTURE FROM WITHIN

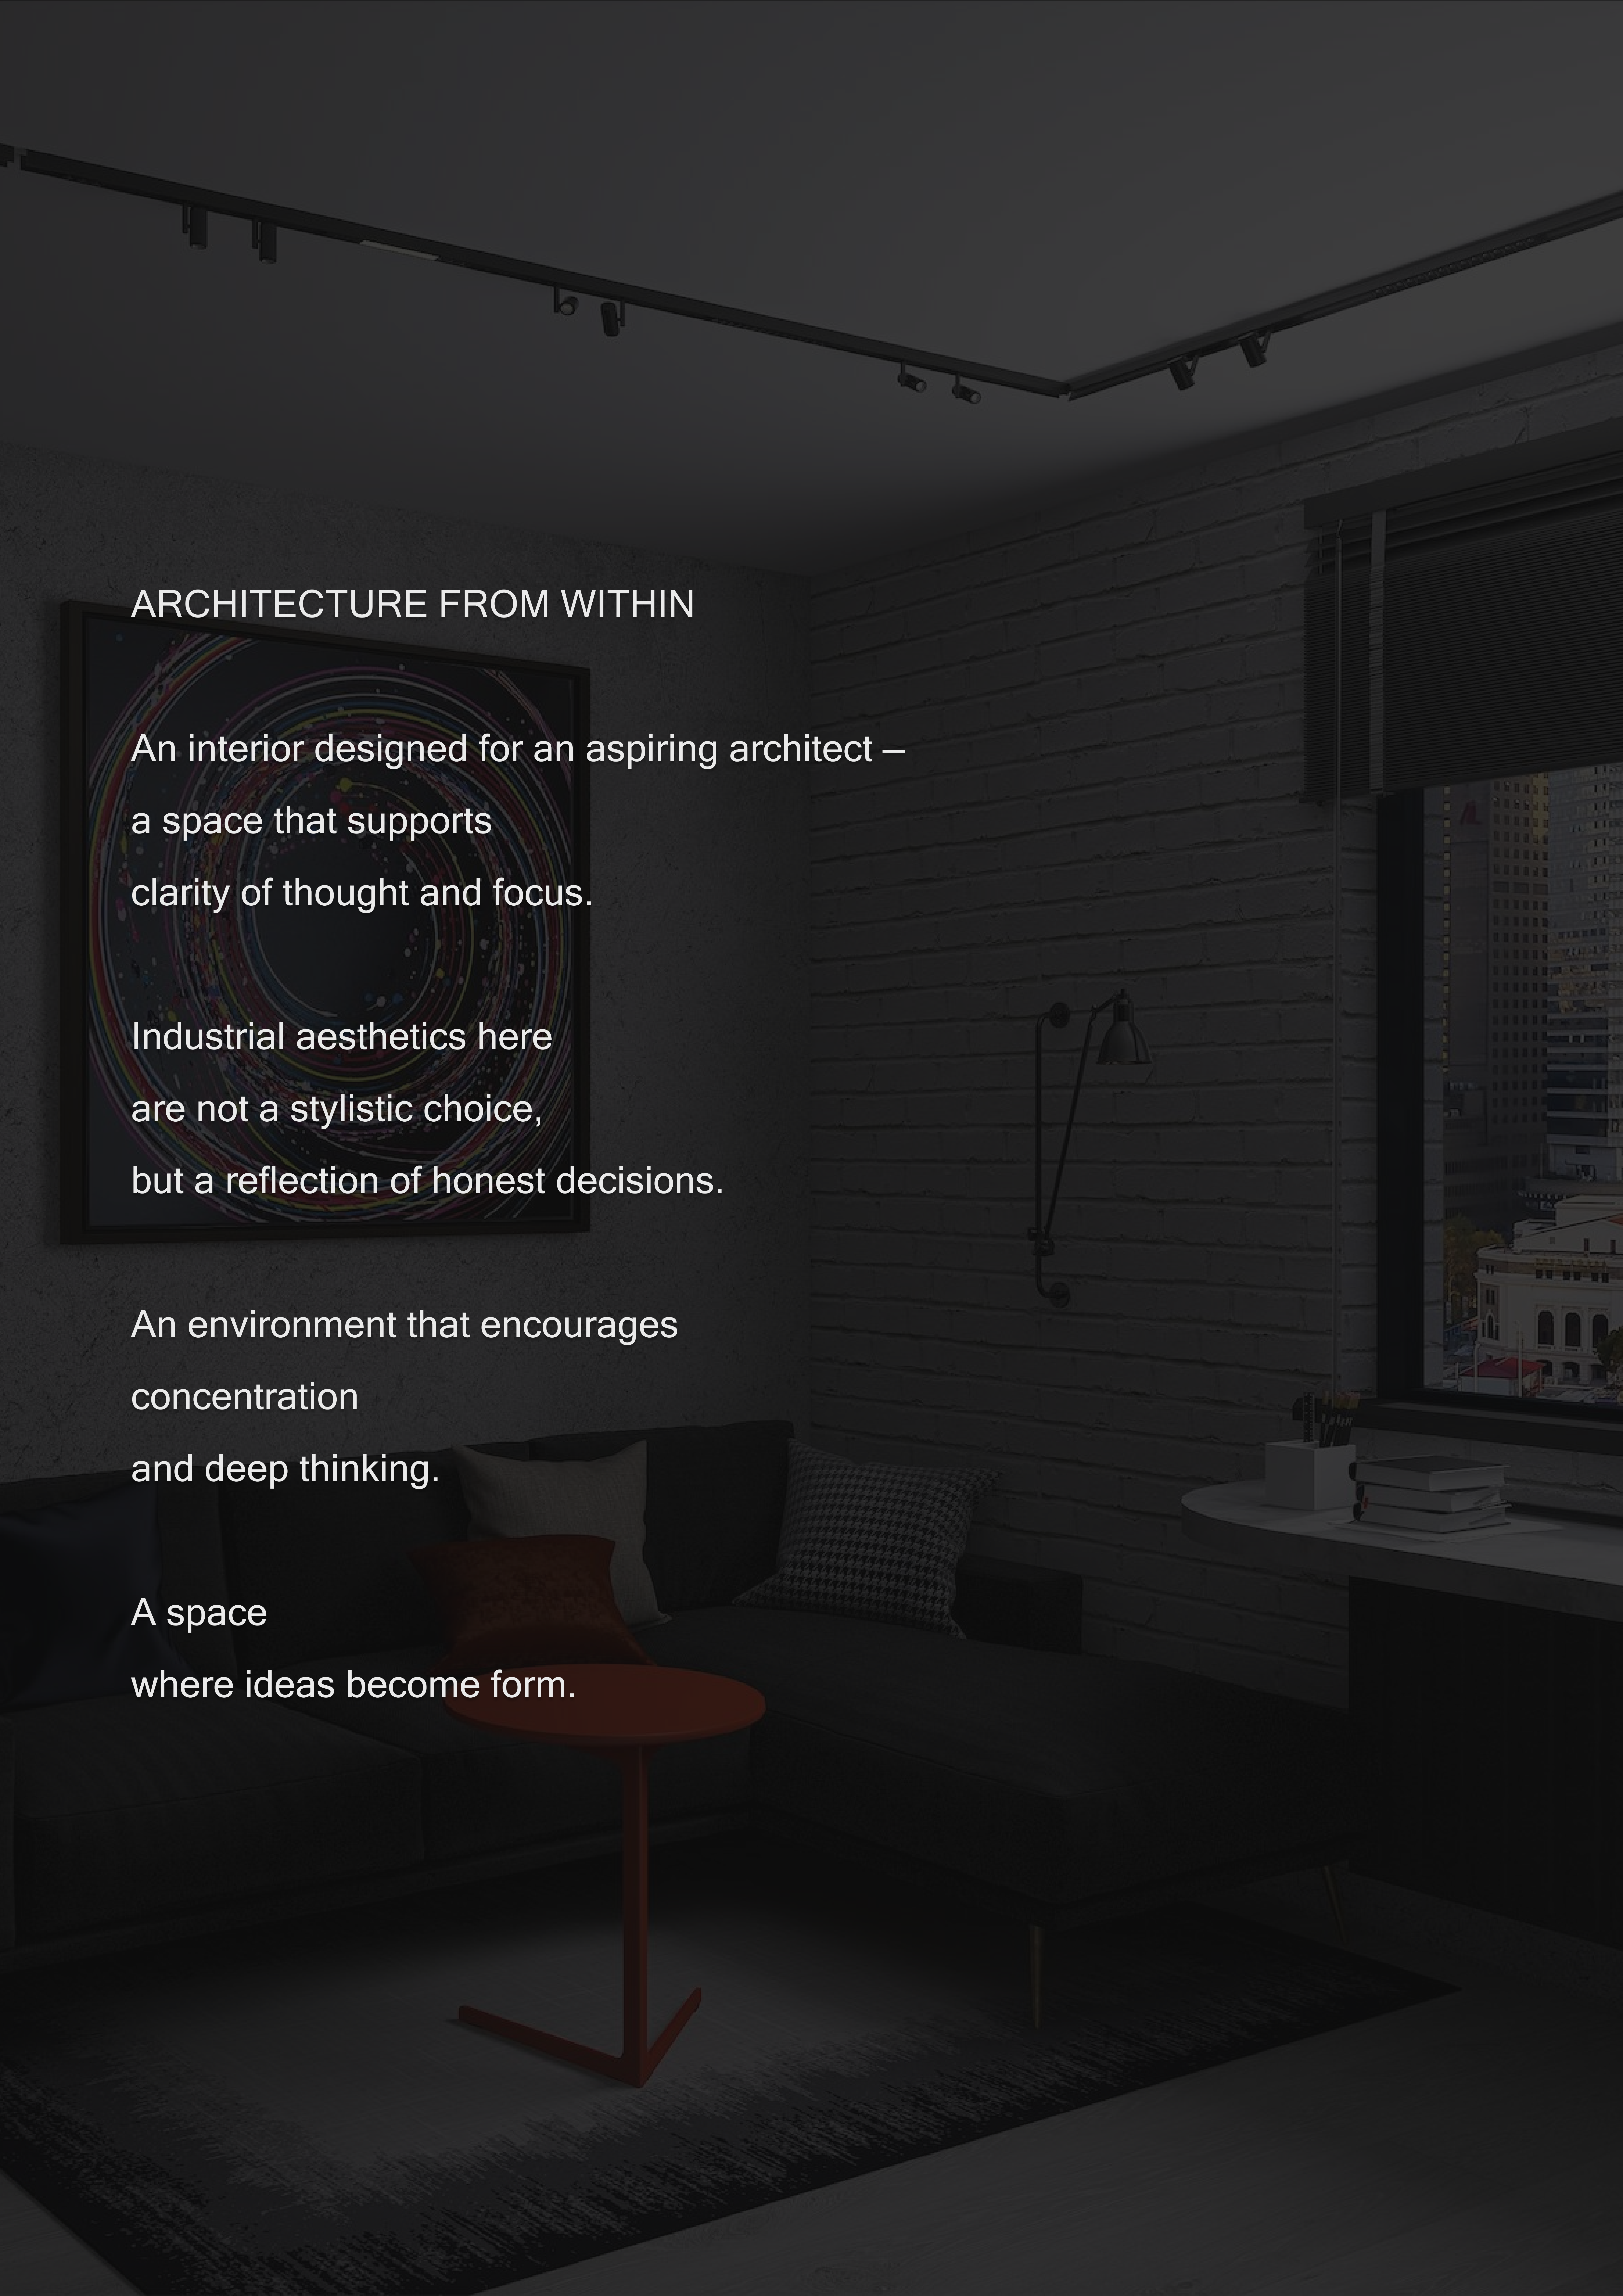

ARCHITECTURE FROM WITHIN

An interior designed for an aspiring architect —
a space that supports
clarity of thought and focus.

Industrial aesthetics here
are not a stylistic choice,
but a reflection of honest decisions.

An environment that encourages
concentration
and deep thinking.

A space
where ideas become form.

Precision starts with space.

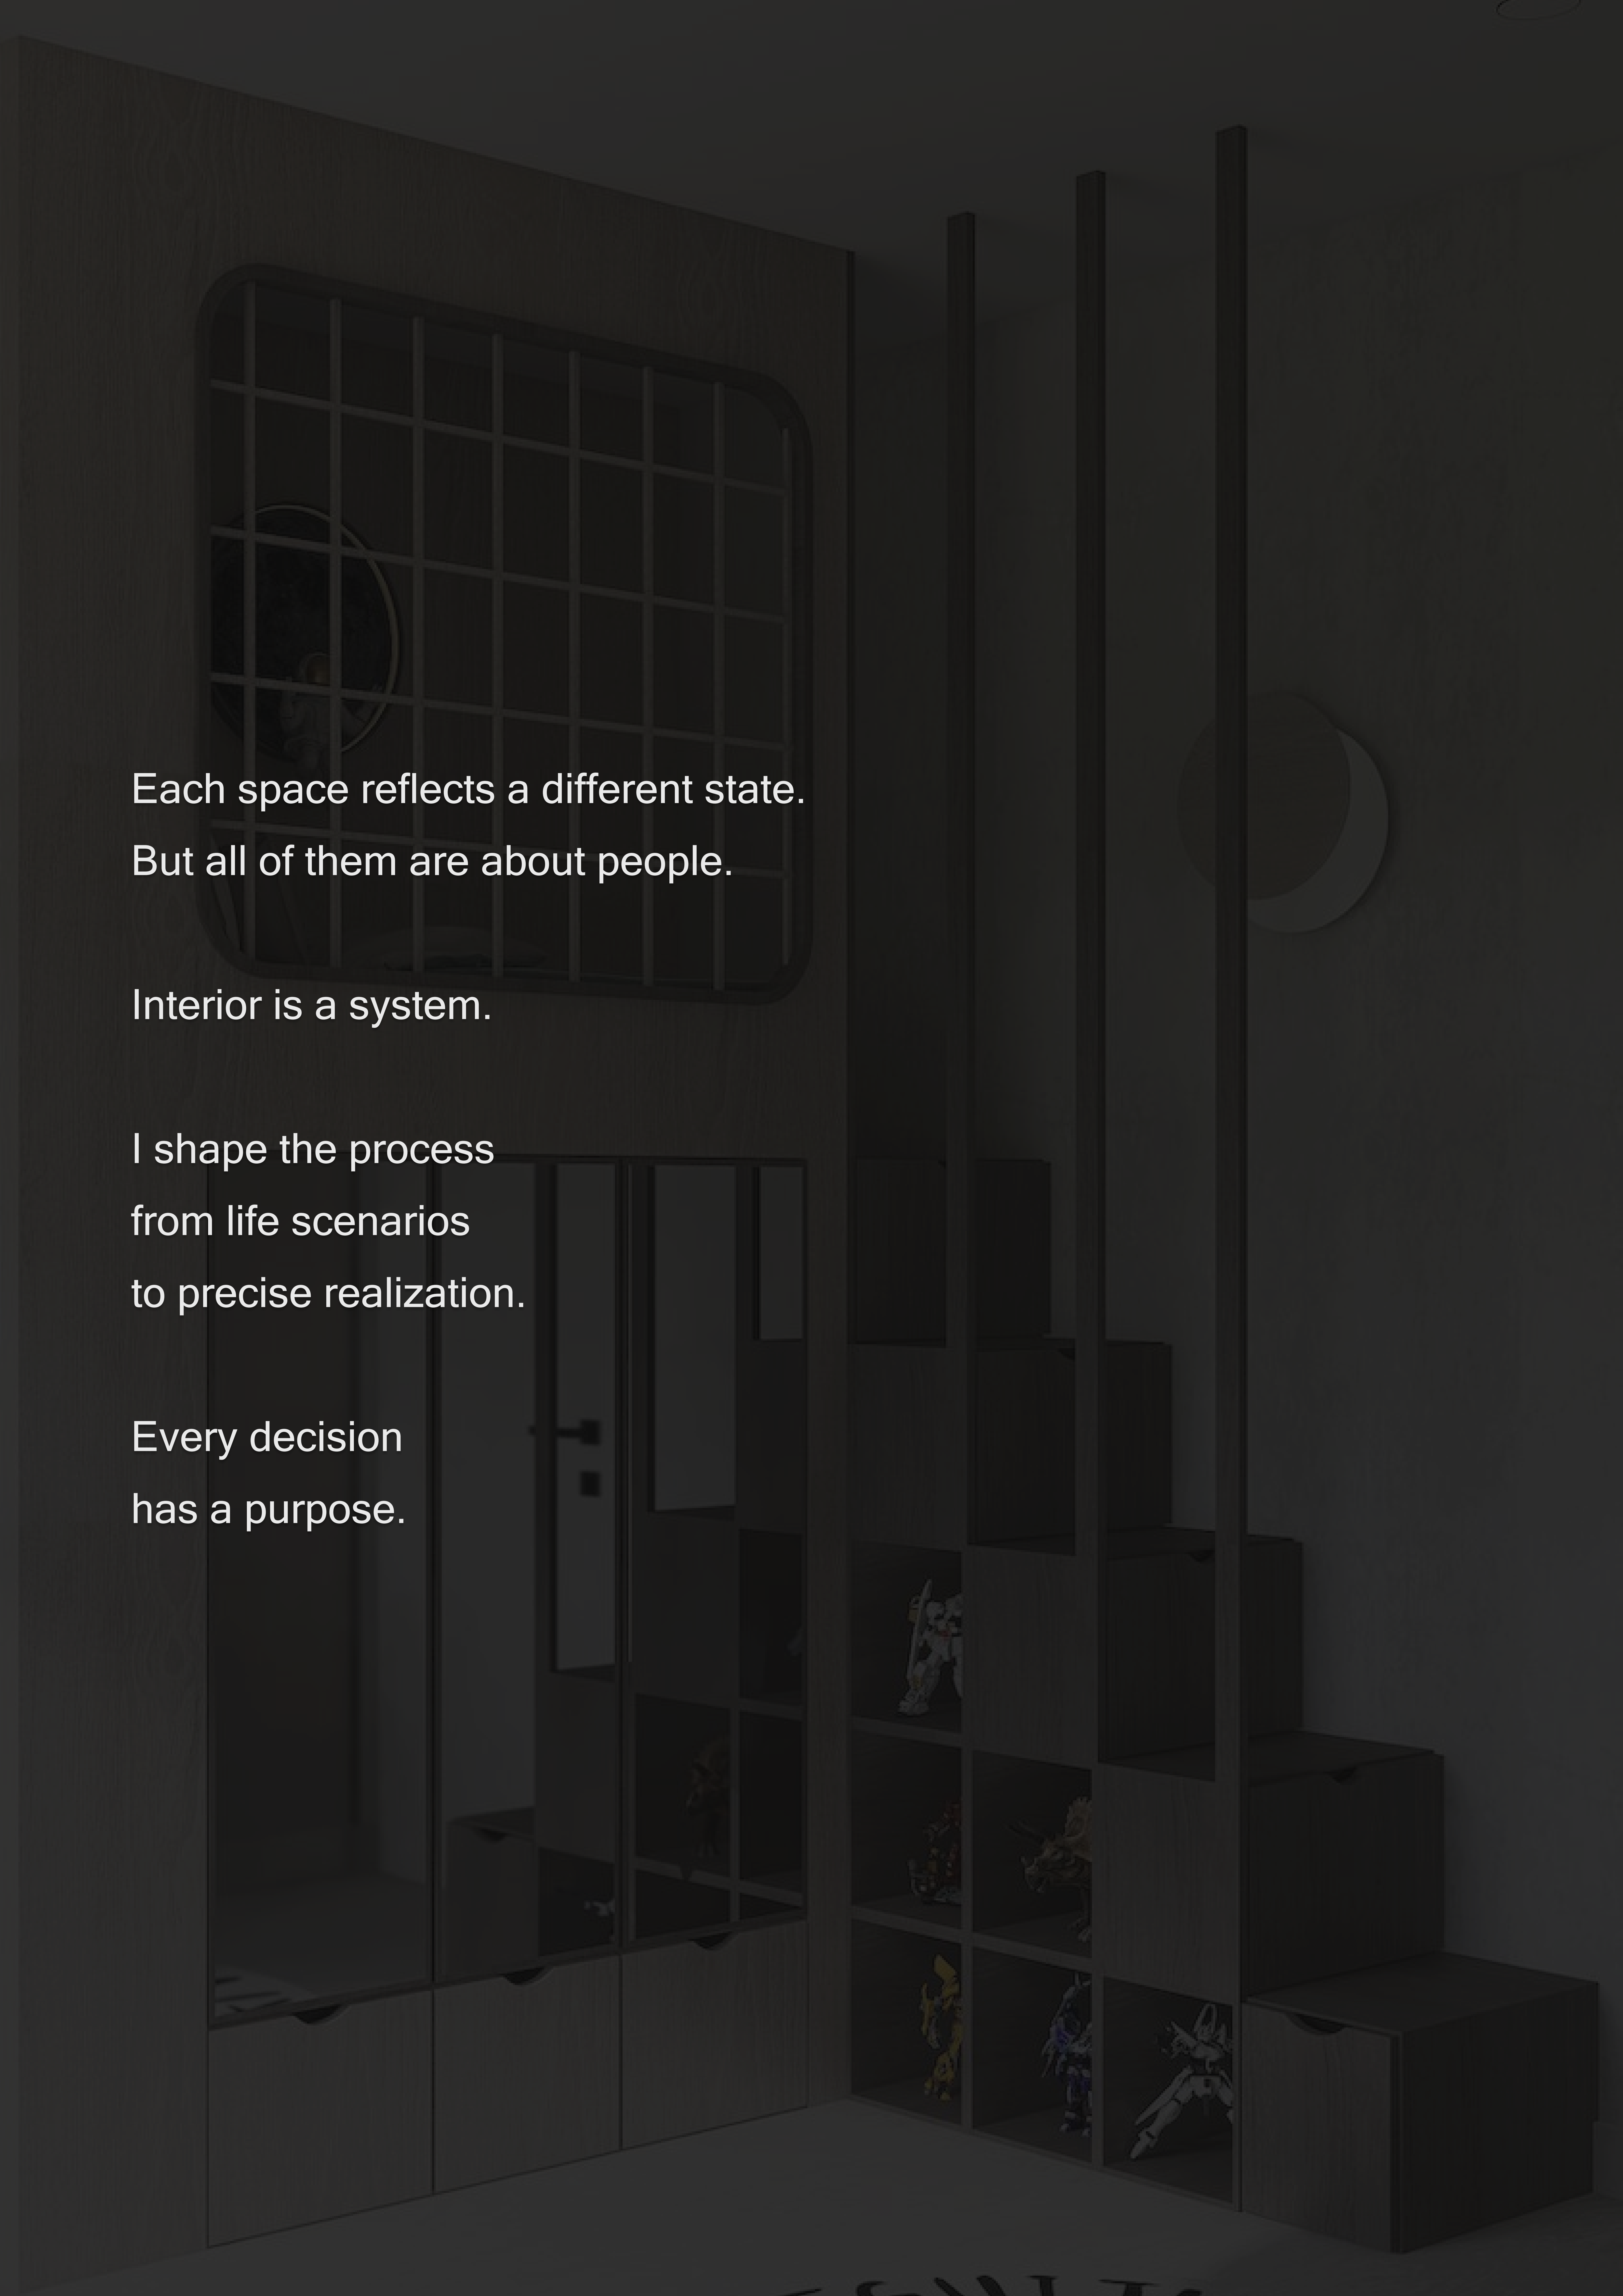

Nothing unnecessary for thinking.

Form follows
the idea.

Project details

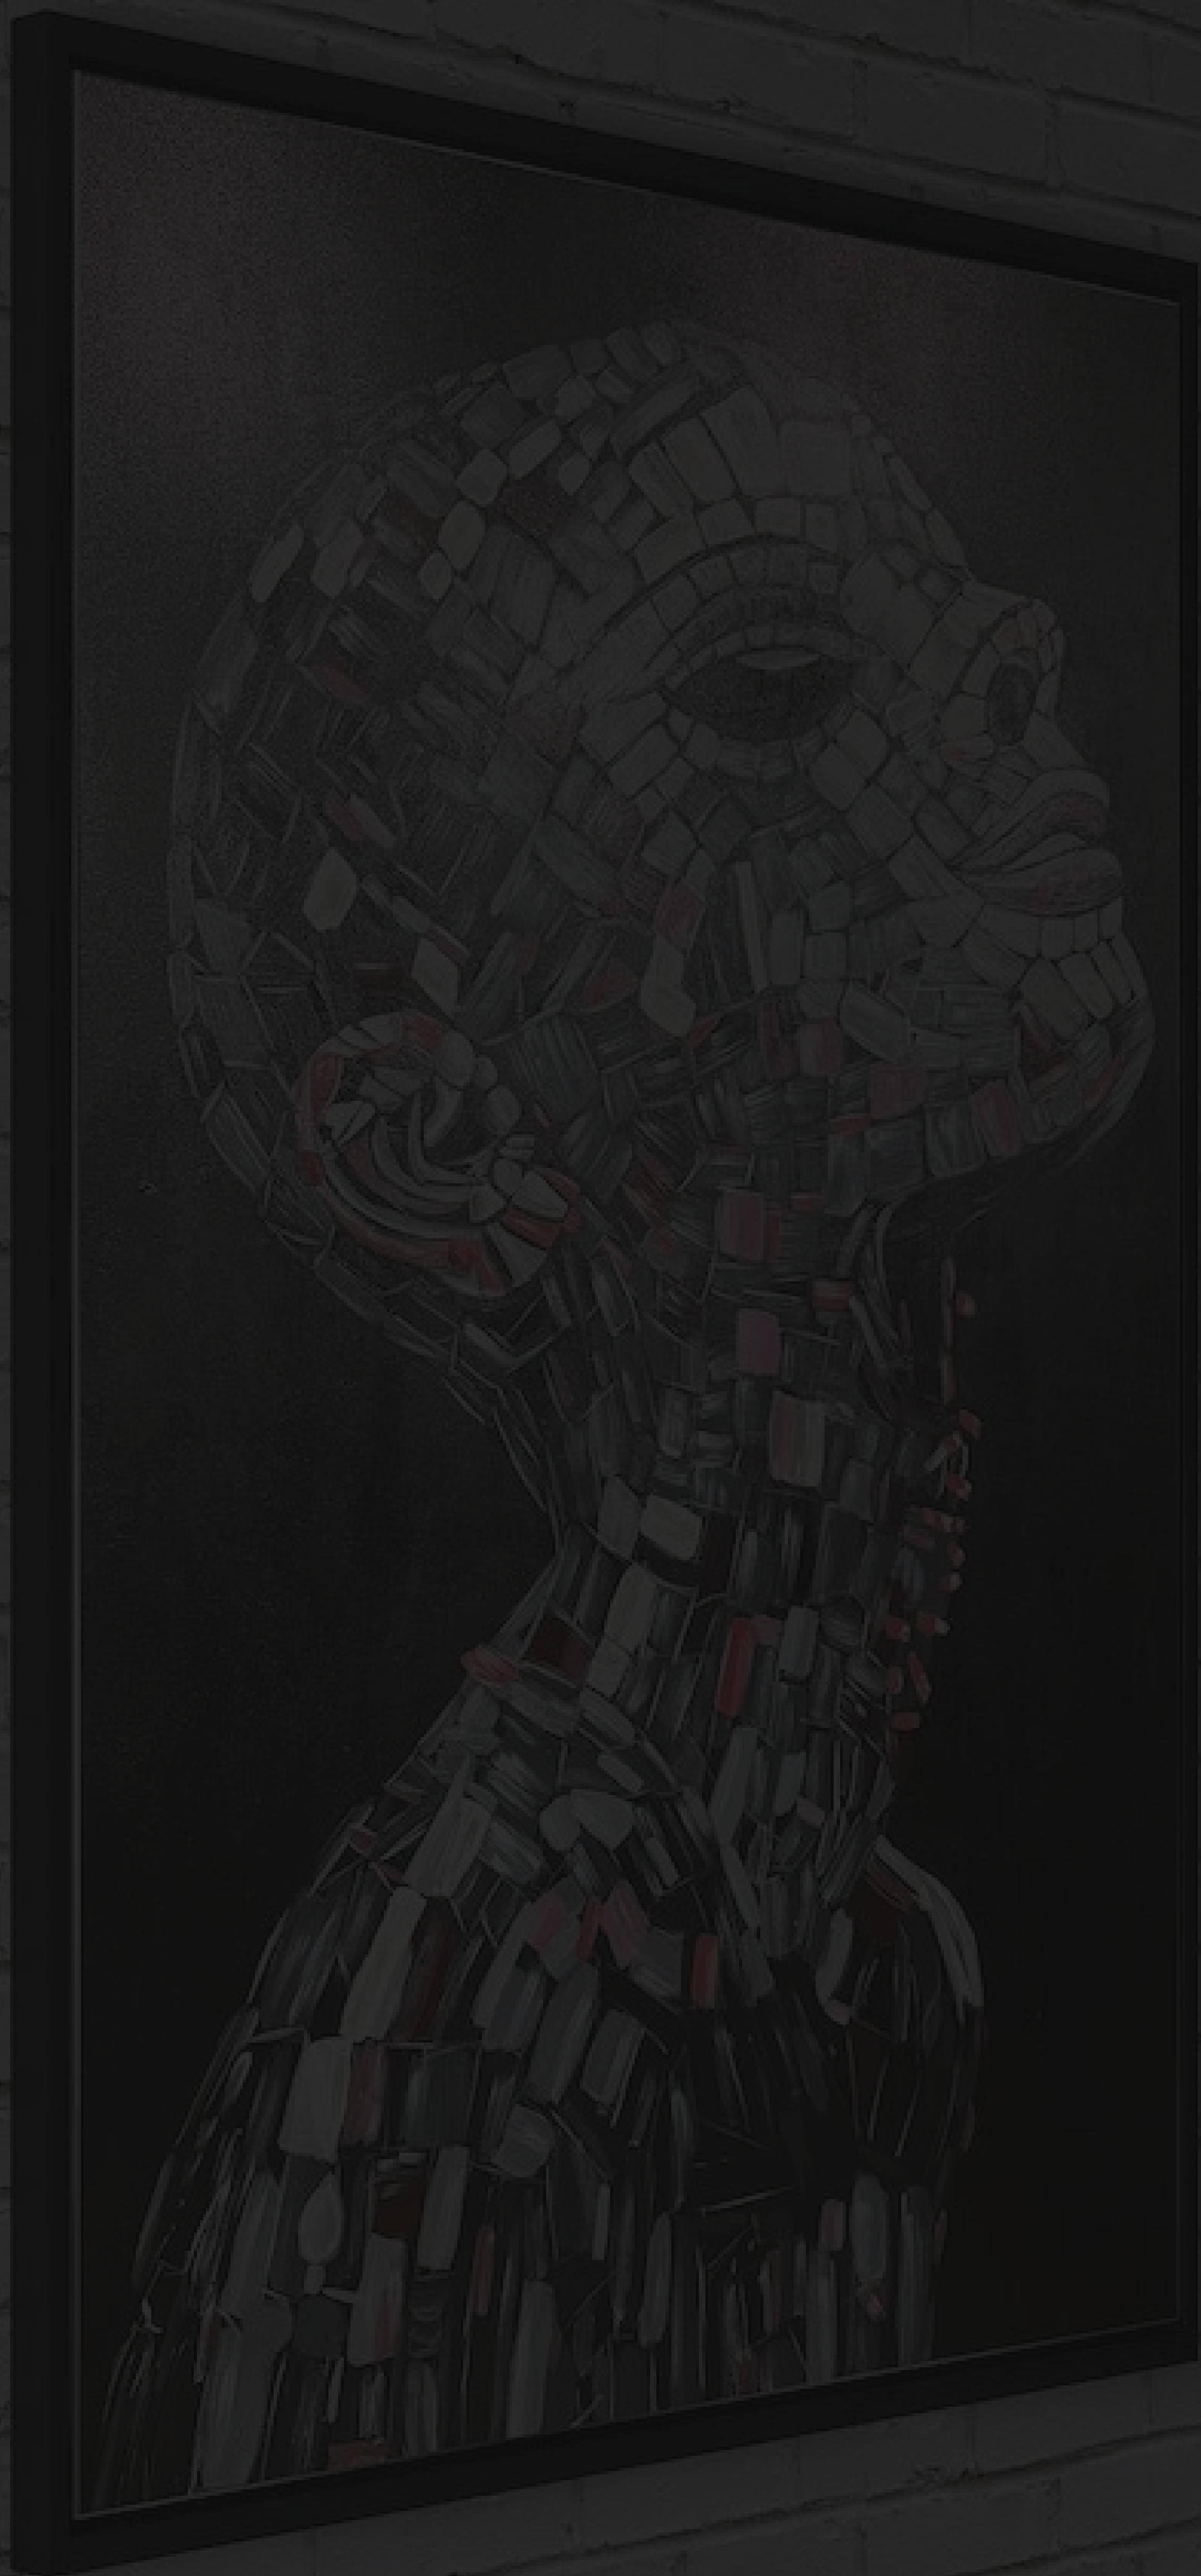

Each space reflects a different state.
But all of them are about people.

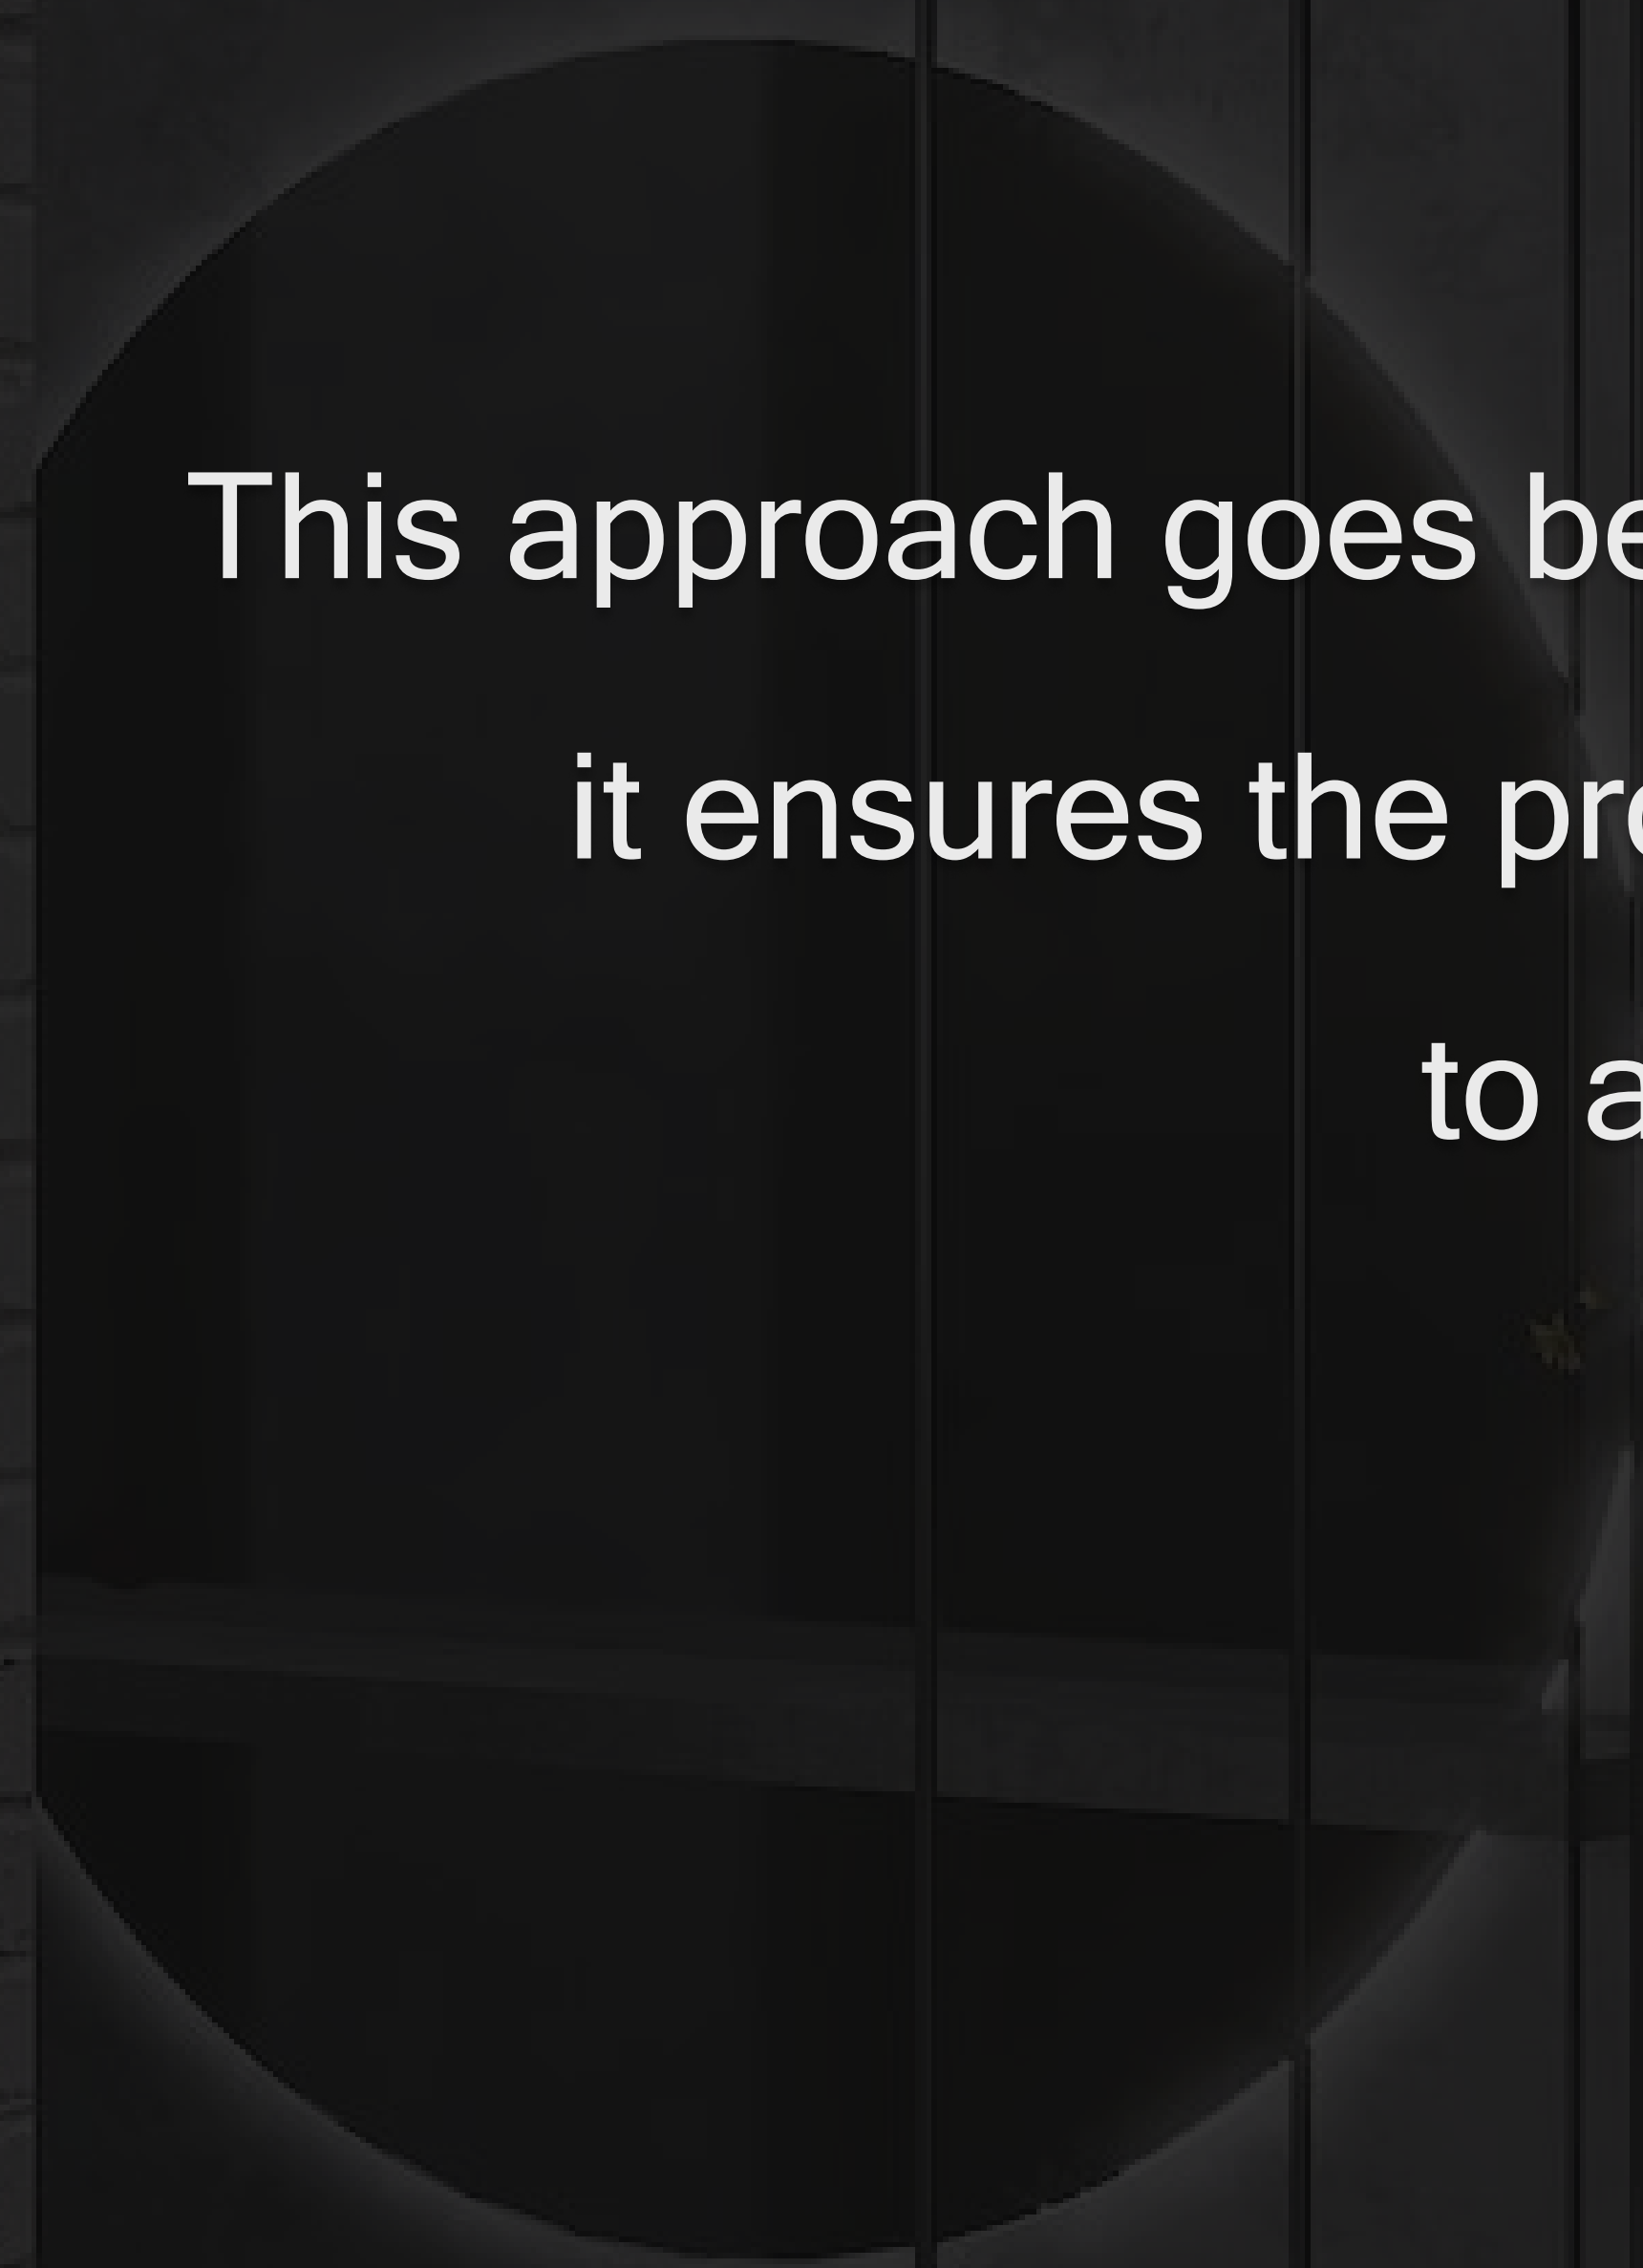

Interior is a system.

I shape the process
from life scenarios
to precise realization.

Every decision
has a purpose.

This approach goes beyond visuals —
it ensures the project is brought
to a precise result.

DESIGN PROCESS

1. SPACE ANALYSIS

Understanding the space and lifestyle.

- site measurements
- discussion of living scenarios
- defining the project foundation

2. CONCEPT

The visual language of the interior.

- collages and moodboards
- selection of reference materials and furniture
- defining the overall atmosphere

3. SPACE PLANNING

Spatial logic and zoning.

- 2-3 layout options
- furniture and functional arrangement
- refinement of the selected solution

4. 3D VISUALIZATION

Visual representation of the interior.

- photorealistic 3D visuals
- key views of the space

5. DOCUMENTATION

Documentation for implementation.

- plans, elevations and details
- lighting, plumbing and electrical layouts
- full drawing set for contractors

6. SOURCING

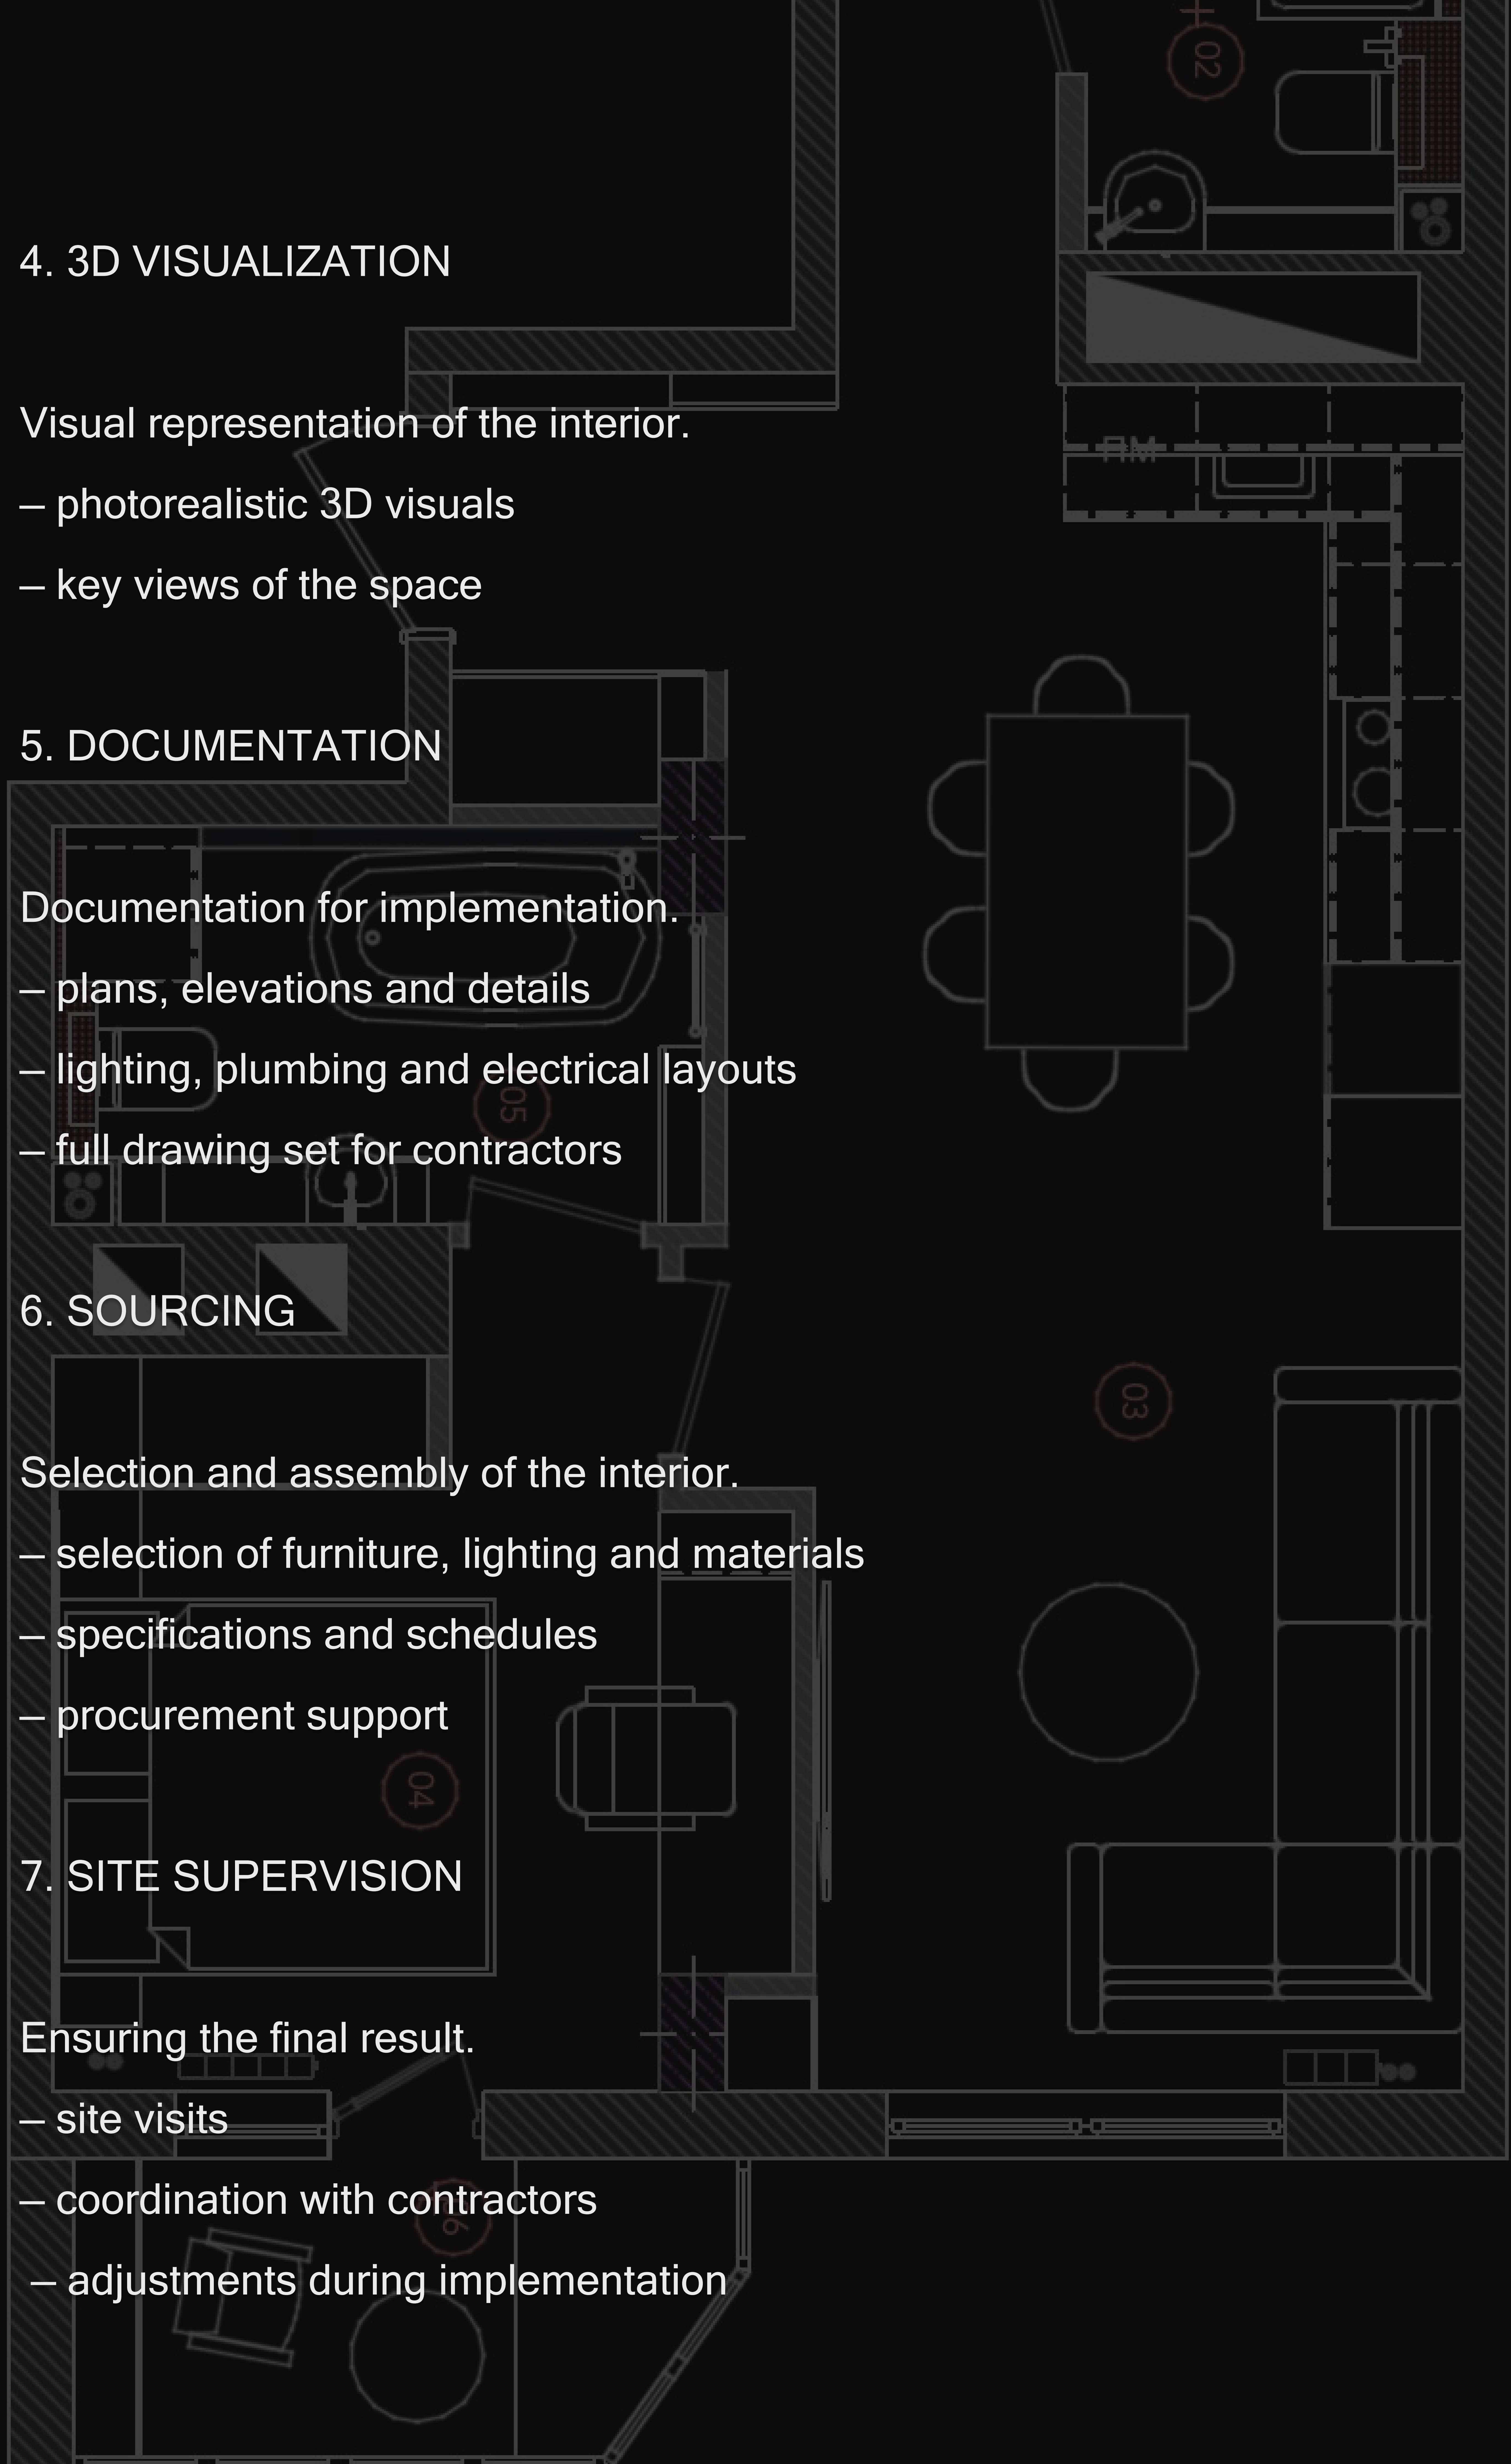

Selection and assembly of the interior.

- selection of furniture, lighting and materials
- specifications and schedules
- procurement support

7. SITE SUPERVISION

Ensuring the final result.

- site visits
- coordination with contractors
- adjustments during implementation
